

Project Description

- Up to approximately 20 miles of 138kV transmission line (line length depends upon final route)
- A 500-foot-wide corridor will be requested, and within that corridor a 100-foot-wide right-of-way would be obtained
- Approximately 2 acres of land for construction, operation, and maintenance of the proposed switchyard
- Approximately 1 acre of land for construction, operation, and maintenance of the proposed Rosemont Substation
